Job Application for Software Engineer

To whom it may concern,

I am writing to express my interest in the summer internship program with your Data Science team. I learned about your company through a couple of my friends who are already working there. I have been a customer for several years without even knowing. I am currently enrolled in BSc Computer Science and will graduate in June 2021. Despite this, I would also be interested in a year-long placement. While I have a comprehensive backend and mathematical background, my emphasis is on machine learning.
